In response to End User requests for a lighter alternative to our well-known Elements™ Jacket, we've crafted this jacket using the innovative Massif® Battleshield® fabric. The Elements™ Lightweight Jacket retains the exceptional flame-resistant properties of our original Elements™ softshells, while providing enhanced mobility and comfort. Inspired by our company's history of taking the best features of outdoor technical apparel and creating a flame-resistant alternative to combine mission-critical protection with advanced design, ensuring the end user is equipped for any operation.
