

**FR****FLAME RESISTANT**

ARMY COMBAT SHIRT TYPE II

A NEW TAKE ON OUR ORIGINAL ACS

Over five million of our combat shirts have been fielded for a reason. The Massif® Type II is our next iteration. Featuring the same comfort and reliability that you're use to in a Massif combat shirt, this alternate version accommodates IOTV plate carriers and we added a 1/4-zip for good measure since so many of you requested it. Flame resistant, light weight and extremely comfortable torso fabrics increase airflow, reduce chafe, and wick sweat away from your skin. The Type II combat shirt will make your job easier.

FEATURES:

- Flat-seam construction minimizes chafing under body armor
- Shoulder pockets with FR zipper keep gear within reach
- Concealable IR tab helps to identify friend or foe
- Loop patches display name, rank, flag and unit
- Pen pocket on left forearm for easy access
- Adjustable wrist cuffs for a custom fit
- FR Elbow pads with SuperFabric® abrasion dots offer extra protection
- A fantastic warmth-to-weight ratio
- Alternate fit available (MCMS00031)
